

The FKvim PROJECT

09/07/2023

The FlashCodes Project

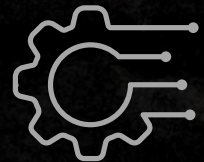

By Mayank Jha

Founder and CEO FlashCodes

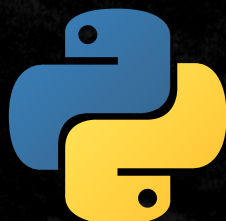

ABOUT PROJECT

WE BELIEVE THAT CUSTOMIZING OF
IDE IS FUNDAMENTAL RIGHT OF A
DEVELOPER

We made our Fuck Vim commonly known as FKvim highly customizable so that developers can configure them as they like. This Project was Started by Mayank Jha as his Personal Configuration of neovim but now its Available to all the editors who wants to customize it
